For the past two years, specially trained staff at Cabin Creek Health System’s four rural clinics have worked closely with patients in their Frail Elder project. With the passage of the Affordable Care Act of 2010, the focus shifted somewhat to educate patients and their families about new provisions affecting seniors. The co-presenters will provide an overview of specific provisions of the Act as it pertains to older adults and how those provisions were incorporated into Cabin Creek’s plan of care. This workshop will present information on how to broach this sensitive topic with older adults and their family members, how to educate older adults and caregivers regarding respectful and safe sexual activity in a variety of living settings and the vital role that sexual expression and activity plays in one’s emotional and physical well-being. Specific issues such as HIV/AIDS, sexual orientation, and the reality that sexual activity among older adults does exist and needs to be addressed as part of their care plans in community-based and residential settings will be discussed. In West Virginia, both the aged and disabled are served by a nationally recognized organization that is represented at 55 locations throughout the Mountain State. At each enriching senior center location, seniors can find a friendly face, caring professionals and access to the finest programs and services available. This workshop will reveal many of the services and activities available at the Centers in WV. The presenters will highlight the importance of the services available through discussion and hands on experience. Learn how these agencies are responding to the growing and changing senior population in WV. You will be surprised with what you discover about these special places! APS, SC/ADRC, CP

Workshop F12   A Look at Funeral Customs
Sueann F. Schwille, MSW, FSL, Northwestern Community Services Board and Karl Schwille, FSL, Turner-Robertshaw Funeral Home

This workshop will be an interactive discussion of the various funerary practices of religious, military and fraternal cultures throughout the U.S. and the world. We will trace the evolution of funeral practices from the ancient Egyptians through the middle ages and to the modern era. The goal of this workshop will be on giving the human service professional a basic understanding of funeral practices of various ethnic, religious and cultural traditions. SC/ADRC, CC

Workshop F13   Legal Issues for LGBT Seniors
Cat McConnell, Executive Director, West Virginia Senior Legal Aid

Lesbian, Gay, Bisexual & Transgender (LGBT) seniors face unique barriers to successful aging. Ageism in the LGBT community and homophobia in the aging services community make it even more difficult for LGBT seniors to get their needs met as they age, especially in rural West Virginia. Much of the safety net of benefit programs is not available to non-traditional family members, and we know that financial security, as well as social supports and access to healthcare, are critical to maintaining independence for all seniors. Learn about how the marriage and biological family bias in law and policy negatively impacts LGBT seniors, what legal planning tools they can use to help mitigate those impacts, and what resources are available for legal advocacy for LGBT West Virginia seniors. In this session you will hear, first hand, how one caring professional taught stress management for 25 years before experiencing an unexpected stress crisis and the lessons learned from that experience. In this energizing session, you will discover the stress illusion of caring professionals, the one cause of all the stress and the only principle you need to release stress instantly. You will experience quick techniques that put you back in the driver’s seat of your life and help you become a more effective caring professional.
